DATA SHEET

Stellar Cyber Open XDR – The All-in-One SecOps Platform

Unified, Simplified, Automated, Under a Single License

With cyberattack diversity increasing and your environment constantly evolving, keeping your organization secure has never been more challenging. To combat these challenges, lean security teams need a better, faster way to detect, investigate, and irradicate threats. **Stellar Cyber Open XDR** addresses the inefficiencies and complexities associated with alert investigations and responses with an all-in-one SecOps platform that anyone can use.

Stellar Cyber Open XDR:

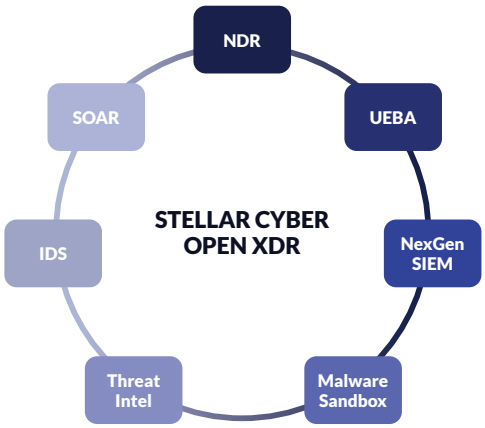
- Ingests, normalizes, and enriches all your security data, including endpoints, network, cloud, and logs into a single repository
- Automatically detects and correlates alerts using a proprietary multi-modal threat detection engine driven by machine learning
- Accelerates threat investigations and threat hunting with contextual data and correlated incidents
- Provides automated and manual response actions in real-time

Stellar Cyber Open XDR Benefits:

- Enhanced visibility reduces the risk of widescale, damaging breach
- Dramatic increase in security analysts' productivity and efficiency
- Reduce attacker dwell time, minimizing attack impact
- Improve ROI of your existing security stack investment

Stellar Cyber Open XDR includes NexGen-SIEM, TIP, UEBA, NDR, SOAR, and more under a single license, providing the critical security capabilities a modern SecOps team needs.

At the same time, Stellar Cyber works with your existing security stack from day one. Simply select your current security products from the list of hundreds of pre-built integrations and deploy the Stellar Cyber collectors and/or sensors across your on-prem and cloud environments.



In minutes Stellar Cyber Open XDR will automatically ingest, normalize, enrich, and analyze the data collected to identify active threats in your environment. Simple as that.

From Detection through Response

Finding hidden threats is valuable, but that is only the beginning. Stellar Cyber Open XDR delivers comprehensive threat lifecycle management, from initial detection through threat correlation and response. With Stellar Cyber Open XDR, your team can complete all their investigations and response in one solution, boosting productivity and efficiency.

STELLAR CYBER®

STELLAR CYBER'S OPEN XDR CORE CAPABILITIES:

Ultra-Flexible Data Sourcing

Incorporate data from any existing security control, IT, and productivity tool into the Stellar Cyber using pre-built integrations with no human intervention

Sensor-Driven Data Collection

Use the proprietary Stellar Cyber sensors to collect raw network telemetry and log data to identify additional threats not seen by your existing security stack

Purpose-Built Data Normalization and Enrichment

Data from any source is automatically normalized and enriched with context such as threat intelligence, user information, asset information, GEO location by Stellar Cyber to enable comprehensive, scalable data analysis

Automated Threat Hunting

Using easy-to-understand querying formats security analyst can create customized threat hunts that can be run ad-hoc or on a set schedule

Multi-Modal Threat Detection Engine

Identifies complex threats using a combination of supervised and unsupervised machine learning and automated threat hunting to deliver the most comprehensive view of threats possible

Machine Learning Correlation

Using graph machine learning techniques, seemingly disparate alerts are combined into incidents providing security analysts with contextualized and prioritized threats to investigate

Guided Investigations

Correlated incidents include the underlying data and context a security analyst needs to complete investigations fast, increasing efficiency and effectiveness

Deterministic Incident Response

Using pre-defined response actions or customizable response playbooks, security analysts can take decisive response actions manually or fully automate responses on the same platform

TAKE THE FIRST STEP TODAY

Every security team should be able to deliver continuous, consistent security regardless of their skills or experience. With Stellar Cyber Open XDR, you get the capabilities you need to keep your business secure with your existing team. **Visit www.stellarcyber.ai today to start your journey.**
