

# EASYVISTA®

EMPOWER YOUR IT

## EV Orchestra

Empower your organization with EV Orchestra, our IT orchestration module that simplifies the automation of your full IT stack by leveraging APIs and low-code building blocks to deliver exponential value across your business.

### COMPREHENSIVE AUTOMATION:

EV Orchestra automates tasks, workflows, and infrastructure across hybrid and multi-cloud environments, ensuring seamless operations and continuous improvement.

### STREAMLINED EFFICIENCY

Reduce time-to-market and realize cost savings by completing projects faster and utilizing IT staff more efficiently.

### COST SAVINGS

Automation provides rapid workflow cost reduction, with savings increasing as infrastructure scale grows, ensuring a return on investment (which is trackable via dashboards).

### ENHANCED PRODUCTIVITY

Automation provides rapid workflow cost reduction, with savings increasing as infrastructure scale grows, ensuring a return on investment (which is trackable via dashboards).

## FACING IT CHALLENGES

As an IT leader in today's IT landscape, you're familiar with the complexities of managing hybrid and multi-cloud infrastructures.

That's where EV Orchestra steps in, addressing pivotal IT hurdles by seamlessly integrating diverse systems and automating operations. Say goodbye to integration headaches as EV Orchestra connects disparate tools, ensuring smooth automation and orchestration processes.

Additionally, it bridges skill gaps within IT teams, empowering them with cutting-edge automation technologies. Rest assured, security and compliance remain top priorities, safeguarding your organization's assets.

Experience simplified IT management and robust compliance with EV Orchestra—the ultimate automation solution for modern IT challenges.

## EMPOWER YOUR IT: UNIFY SUPPORT & OPS WITH EASYVISTA PLATFORM

Experience a transformative leap in IT management with EV Orchestra, where efficiency is not just optimized—it's streamlined.

With comprehensive automation capabilities, EV Orchestra simplifies hybrid and multi-cloud environment management, effortlessly overcoming integration hurdles.

Seamlessly integrate with the EasyVista Platform to elevate IT Service Management and Infrastructure Monitoring, ensuring a unified, user-centric experience that propels your organization's IT maturity forward.

Unleash unparalleled efficiency, reliability, and innovation with EV Orchestra—the future of IT management is seamless and empowering.

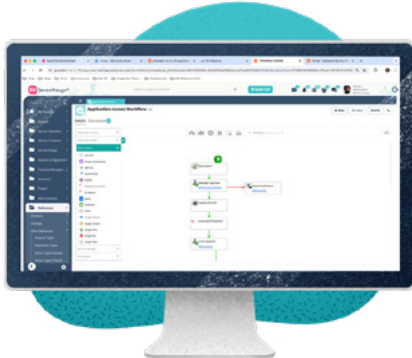

## STREAMLINE ITSM AUTOMATION 3 CLOUD MANAGEMENT CENTERS

EV Orchestrate offers cross-domain hyper-automation, automating 80% of ITSM tasks. It harmonizes disparate services, enabling end-to-end automation. By integrating with any monitoring system, it responds intelligently and ensures faster incident resolution, alert deduplication, resilient IT infrastructure, and streamlined communication between platforms.

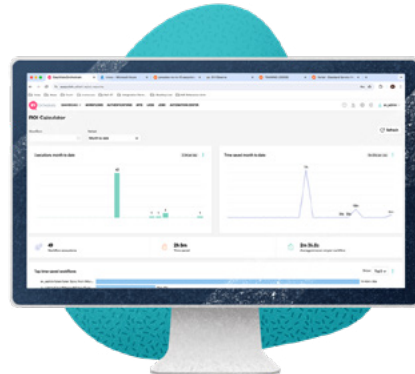

## DELIVERING ON THE PROMISE OBSERVABILITY WITH AUTOMATION

Automate observability with EV Orchestrate's low-code solution. Simplify insights from performance monitoring platforms, accelerating resolutions and reducing costs. Streamline workflows for increased productivity, ensuring faster value delivery and lower ownership costs.

## STREAMLINING CLOUD PROVISIONING

EV Orchestrate automates cloud & SaaS provisioning across environments with low-code blocks, minimizing errors. It streamlines VLAN, IP, DNS, and configuration tasks, reducing deployment time in VMware, OpenStack, and public clouds, enhancing efficiency and accuracy.

## EFFICIENT 3 CLOUD MANAGEMENT CENTERS

EV Orchestrate's User Onboarding automates employee access to critical systems, ensuring swift, error-free onboarding and offboarding. With pre-configured workflows, it optimizes efficiency, enhances security, and delivers real-time reports, reducing operational costs significantly.
