- Remote working, telecommuting and increasing frontline workforce has led to a disruption in the conventional means of organizational operations.
- Education is transforming with virtual classrooms and distance learning.
- We now live in a world of Mobile devices, laptops and desktops and diverse endpoints.
- Mobility is no longer an option, but a need.

# Enterprise IT: Is This What You Go Through?

## You want to provision devices over the air to get started quickly

Deploying company policies on devices with diverse ownership models & device types

## Managing app and content remotely for a large device inventory is cumbersome

Distributing business resources, apps & content on devices

## You need to maintain data & device security at all times

Securing device and critical business data from misuse, unauthorized access & malware attacks

## You are expected to monitor devices in real-time

Performing device-health & compliance checks to maintain device performance. Manually resolving device issues & compliance violations

## You spend hours doing tasks manually

No automation based on data leads to manual IT tasks

## You are tired of the complexity of the MDM platforms

Complex dashboard and MDM product with long learning cycles calls for high-skilled IT resources

# Scalefusion: A Solution for your Mobility Needs

A secured, intuitive and scalable MDM solution that helps organization of any size to secure and manage endpoints including smartphones, tablets, laptops, rugged devices, POS, and digital signages, along with apps and content. Scalefusion offers multiple language, multiple hosting methods such as on cloud, on premise, and Virtual Private Cloud.

<b>MDM - Mobile Device Management</b>	<b>EMM - Enterprise Mobility Management (All Capabilities of MDM +...)</b>	<b>UEM - Unified Endpoint Management (All Capabilities of EMM +...)</b>
Device Management	Application & Content Management	Multi-OS Provisioning
Security	Device Group Based Controls	OS Update & Patch Management
Hardware Control Capabilities	Remote Control Mobile Devices	Integrated Management

# What Scalefusion Does For You

**SAMSUNG**  
Knox Mobile Enrollment

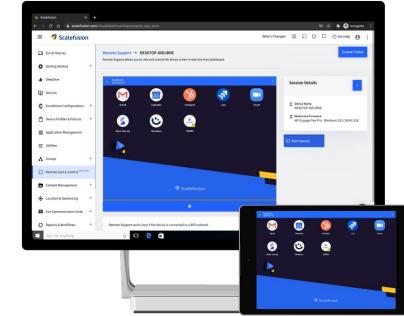

## Simplified Deployment

- Enrollment using Email, Android Zero touch, Apple School Manager, Apple Business Manager, URL, QR code, Office 365, Windows Autopilot.
- IMEI and serial number-based enrollment
- ROM enrollment

## Enhanced Security

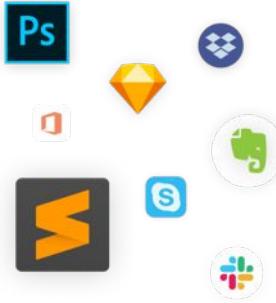

- Stringent policy application & DLP Policies
- Password enforcement
- Compliance violation tracking
- Enhanced policy control using Custom Payload
- Certificate Management

## Remote Control & Troubleshooting

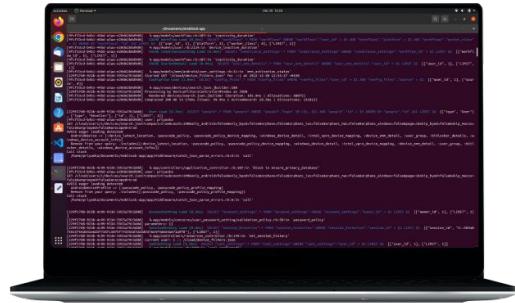

- Remotely cast devices onto Scalefusion dashboard
- Take screenshots & screen recording
- Leverage Intel AMT OOBM to fix issues not only at the OS level, but to boot into bios for quick and outright issue resolution

# What Scalefusion Does for You

## Application Management

- Distribute Apps over the air with Zero Touch
- Get Access to a Vast Library of Over 500+ Apps with App Catalog for Windows
- Upload and distribute enterprise apps via Scalefusion Enterprise Store.

## Scripting

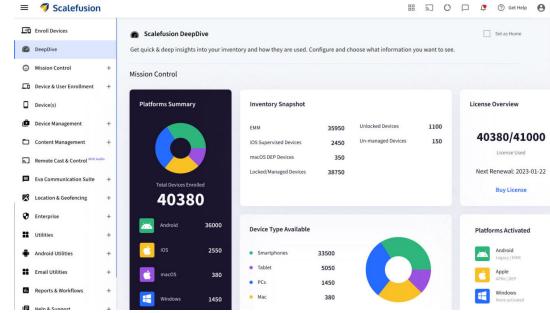

- Create and deploy custom scripts for your devices
- Use custom payloads to streamline device configurations
- Generate Powershell, Shell, Bash or Python scripts instantaneously with AirThink AI

## OS Update & Patch Management

- Schedule, delay and automate OS Updates and Patches for your device fleet
- Simplify Third-Party Application Patching
- Push diverse software as well as driver updates with ease

# What Scalefusion Does for You

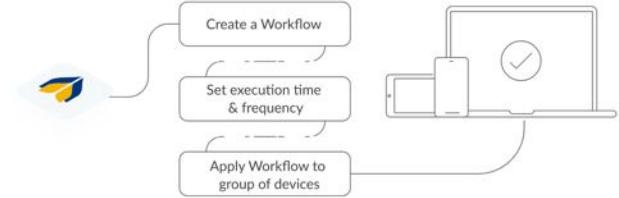

## Increased Visibility with DeepDive

- Find all your device inventory information in one place
- View platform-wise device vitals and statistics
- Track compliance violations

## Email and Exchange Management

- Configure and push email (POP/IMAP) settings
- Enable SMTP settings
- Provision Microsoft Exchange settings
- Set mail sync frequency and sync history

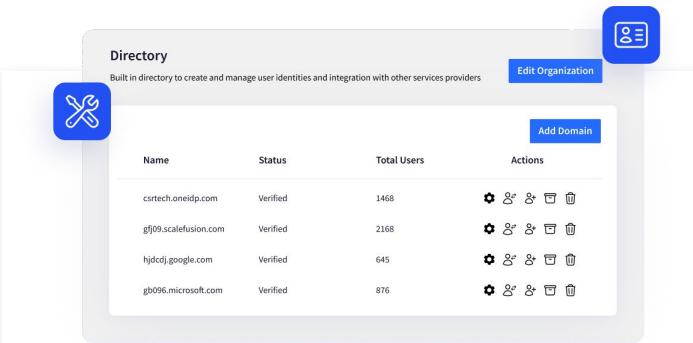

## Job Scheduling with Workflows

- Automated IT jobs without scripting
- Job Scheduling for policy application, recurring IT tasks
- Compliance checks mitigating manual IT efforts
- Alerts for data, battery, storage usage & remote device rebooting

# Scalefusion OneIdP

## UEM Integrated Identity and Access Management Solution

Directory

Built in directory to create and manage user identities and integration with other services providers

**Edit Organization**

**Add Domain**

Name	Status	Total Users	Actions
csotech.oneidp.com	Verified	1468	
gfj09.scalefusion.com	Verified	2168	
hjdcj.google.com	Verified	645	
gb096.microsoft.com	Verified	876	

### Directory Services

- Import your users from existing directories
- Create a custom directory with \*oneidp.com
- Optimize device onboarding with user-based deployment
- Simplify device enrollment and user lifecycle management

### Access Management with Keycard

- Limit login access in only pre-approved Wi-Fi networks and IP addresses
- Set date and time conditions to when users can access the device
- Set geofences to specify authorized locations for device access
- Customize the login screen with your brand logos and wallpapers.

### Single Sign-On (SSO)

- One-click login to access devices and corporate applications within
- Configure browser policy within conditional access rules
- Eliminate the necessity for complex, unique passwords for each application
- Minimize password reset requests and troubleshooting login problems

# Scalefusion Dashboard Attributes

## Ease of Use

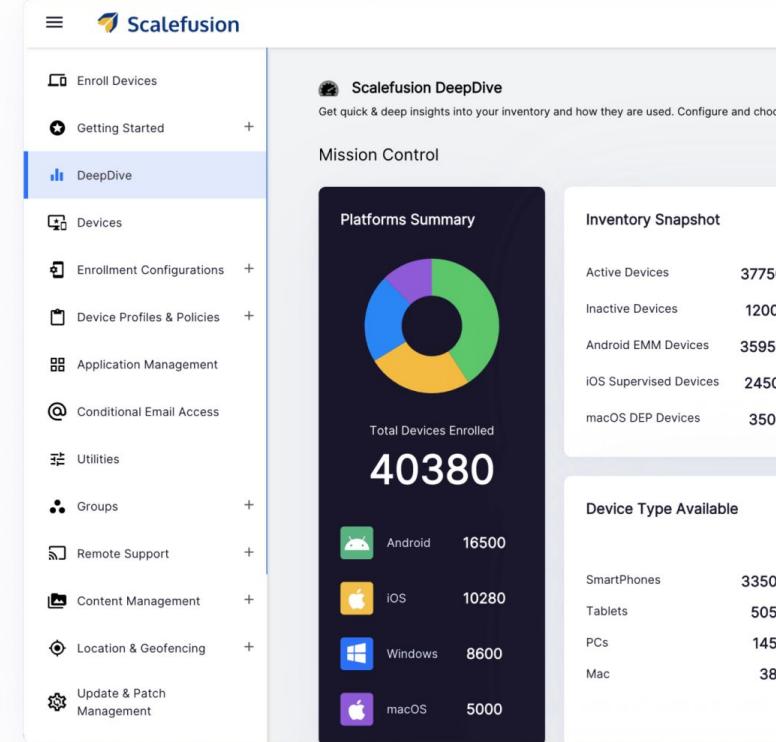

- Intuitive dashboard suitable for novice & seasoned IT alike
- Straightforward setup, easy enrollment & clutter-free dashboard
- SSO enabled via Office 365/Azure AD, G Suite and Okta
- Added security with Two-Factor authentication
- Consistent stability post updates

## Groups and Subgroups

- Cross-platform device grouping
- Selective group-wise policy application
- Subgroups for enhanced management
- User groups and subgroups for BYO devices

## Comprehensive Reporting

- Quick reports for 10+ device vitals
- Track app and content publishing
- Dashboard usage reports for account activity

# Scalefusion Key Differentiators

## Conditional Email Access

- Corporate email security strategy
- Ideal for BYOD work environment
- Restricted email access with Default Global Access policy
- Grace period enablement of 15 or 30 days
- Ability to target users for selective policy application
- Roll out device enrollment reminder emails

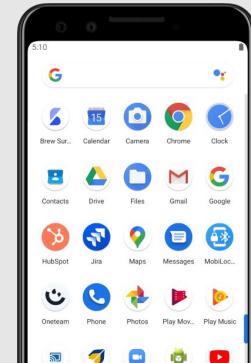

## Remote Troubleshooting

- Device troubleshooting with Remote Cast & Control
- ITSM tool integration for ticketing & VoIP call support
- Integrate JIRA, Freshservice or any other tool of your choice
- File Sync

## Customer Support

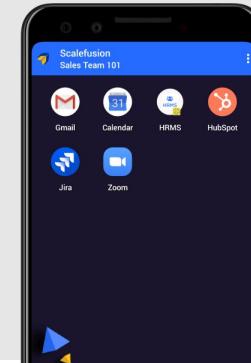

- Customer support as a part of solution offering.
- Chat-based customer support
- Complementary trainings
- Dedicated account manager

# Scalefusion Device Management Modes

## Corporate Owned

- Full-managed devices
- Extensive app and content management
- Comprehensive policy application
- Default launcher

## Kiosk

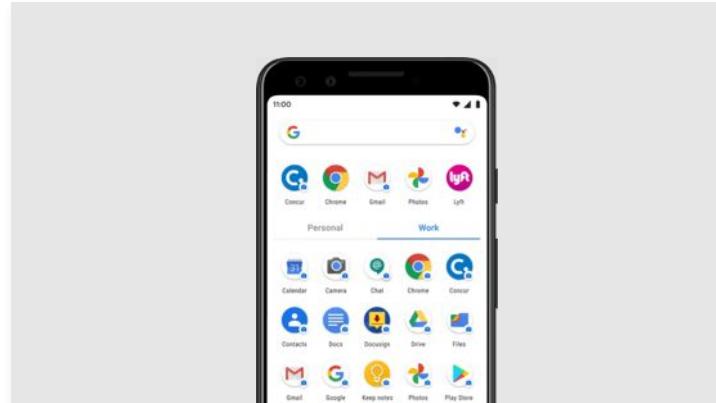

- Single or multi-app kiosk mode
- Custom launcher
- Control device hardware keys and navigation
- Ideal for customer-facing use-cases

# Scalefusion Device Management Modes

## WPCO

- Support personal profile on corporate devices
- Restrict personal usage during work hours
- Establish data-secure personal profiles for enhanced confidentiality

## BYOD

- Support employee-owned devices
- Work profile for Android devices
- Selectively manage work apps on employee devices
- Remotely wipe corporate apps and data

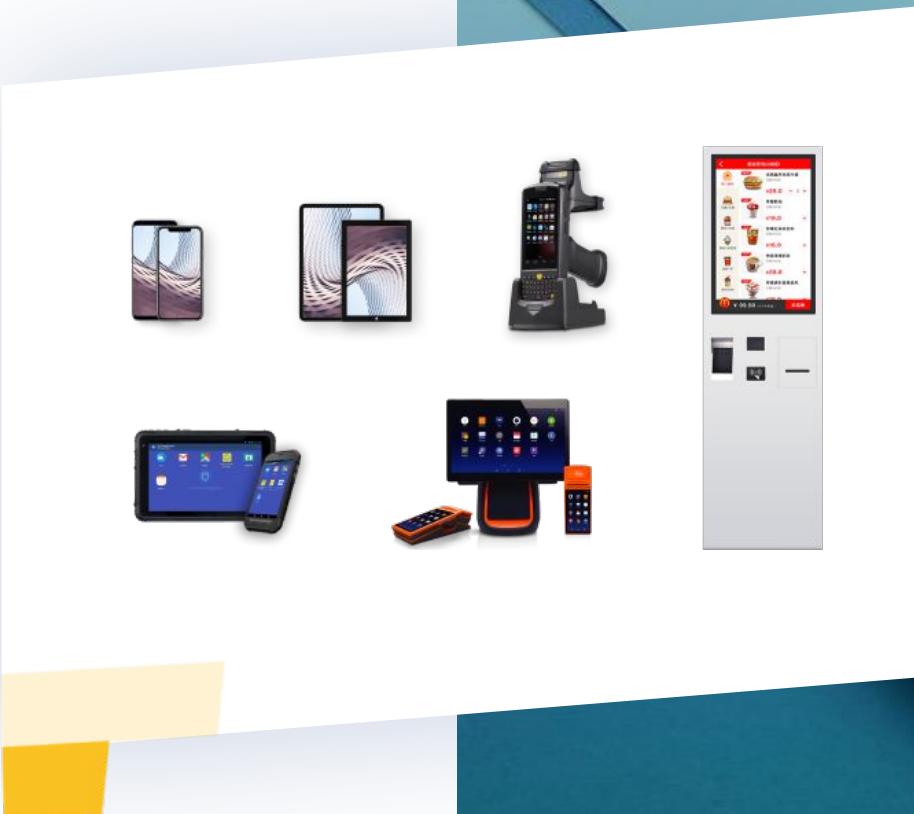

# Scalefusion Platform & Version Support

Platform	OS Versions
 android	5 for Kiosk (Legacy), 6 & above for Android Enterprise Setup (EMM) 6 and above for BYOD
 Windows	7 & Above
 macOS	10.13 (High Sierra) and above
 iOS	9.3 & Above
 debian	Ubuntu 18.04, Mint 19.1, Kali 2022.4

# Scalefusion for Android

## Exhaustive support & Enhanced Security with

- Location tracking
- Strict App Lockdown: Single & Multi app kiosk
- Time, Geo fence-based policies
- App Catalog
- Shared Devices
- SafetyNet Attestation
- Certificate Management
- VPN & Wi-Fi Configuration
- DLP policies and hardware control
- Remote wipe
- Factory reset protection

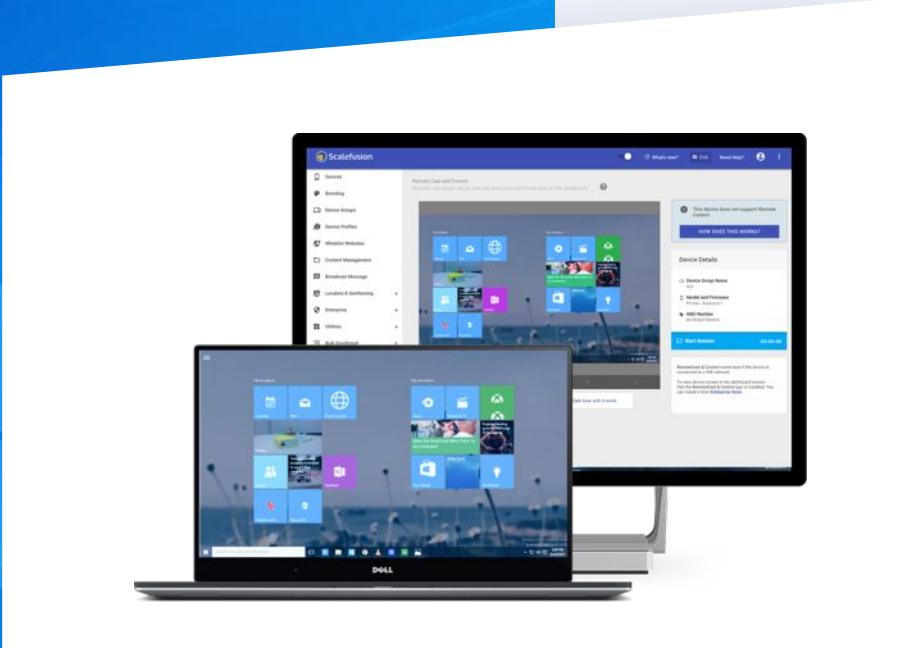

# Scalefusion for Android

## Enhanced Security with

- SafetyNet Attestation
- Certificate Management
- VPN & Wi-Fi Configuration
- DLP policies and hardware control
- Remote wipe
- Factory reset protection

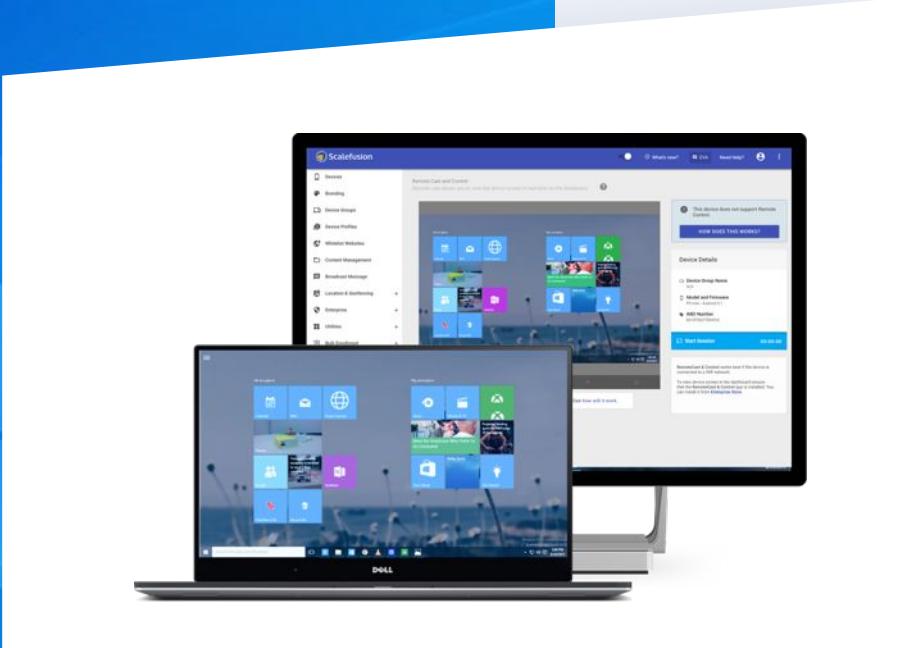

# Windows Scalefusion for Windows

- Legacy & Modern PC management for Company-owned & BYO PCs
- Support for physical & virtual desktop/machine
- Azure Based device provisioning (AD Join) : Listing in Azure AD Marketplace
- Single and Multi-app kiosk mode
- Google Chrome & Edge Configuration via ADMX policies
- No need for XML-based policy configuration for common scenarios
- Enhanced policy control using Custom Payload

# Scalefusion for Windows

- Custom Enterprise Store that gives the ability to push MSI apps, UWP apps, EXE & Powershell
- BitLocker and Windows Defender
- Patch Management
- Windows Hello Integration
- Certificate Management & VPN Configuration
- OS Updates Control
- Peripherals & Settings App Control
- Third-party Application Patching
- Unattended Remote Cast and Control
- Intel vPro Integration
- App Catalog

# Scalefusion for iOS

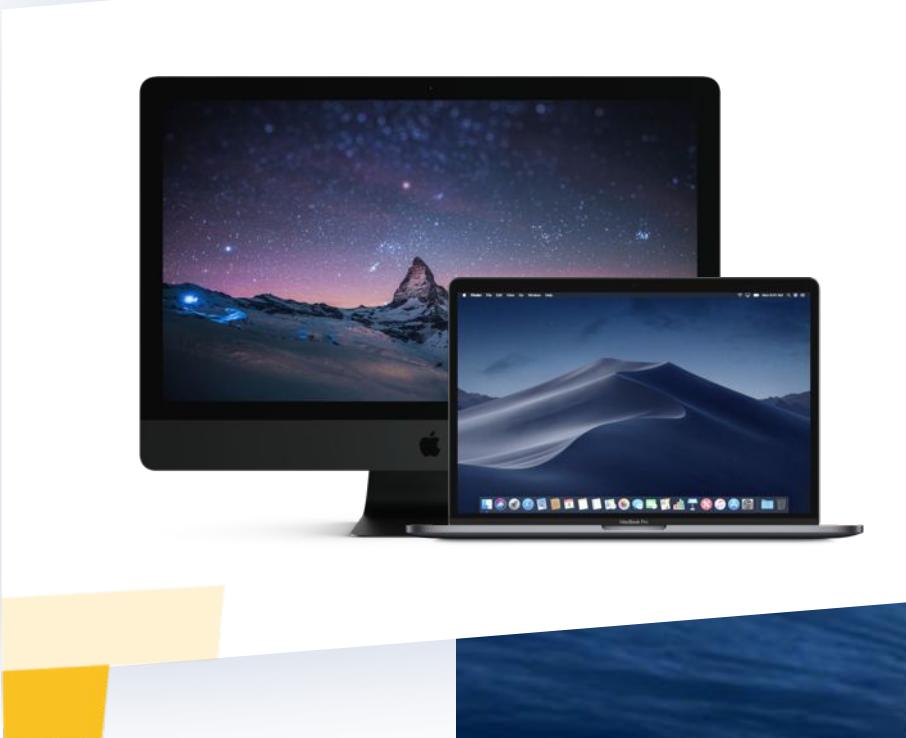

- Support for company-owned & BYOD
- Apple User-based Enrollment for modern BYOD
- Private App Distribution with support for PList link, IPA files and App Catalog
- Secure content distribution
- Allowed & Blocked Apps, Website Filtering
- Certificate Management, Wi-Fi Configuration & Restrictions
- Work Container settings & Remote wipe
- App Catalog

# Scalefusion for macOS

- Support for company-owned & BYOD use-cases
- Application Management for apps with App Store, VPP and PKG File Support
- Web Content Filtering
- Gatekeeper and Firewall Settings
- Full Disk Encryption using FileVault
- Certificate Management
- OS Update & Patch Management
- Wi-Fi Configuration
- Custom Payload Settings
- LDAP and AD Integration

# Scalefusion for Linux

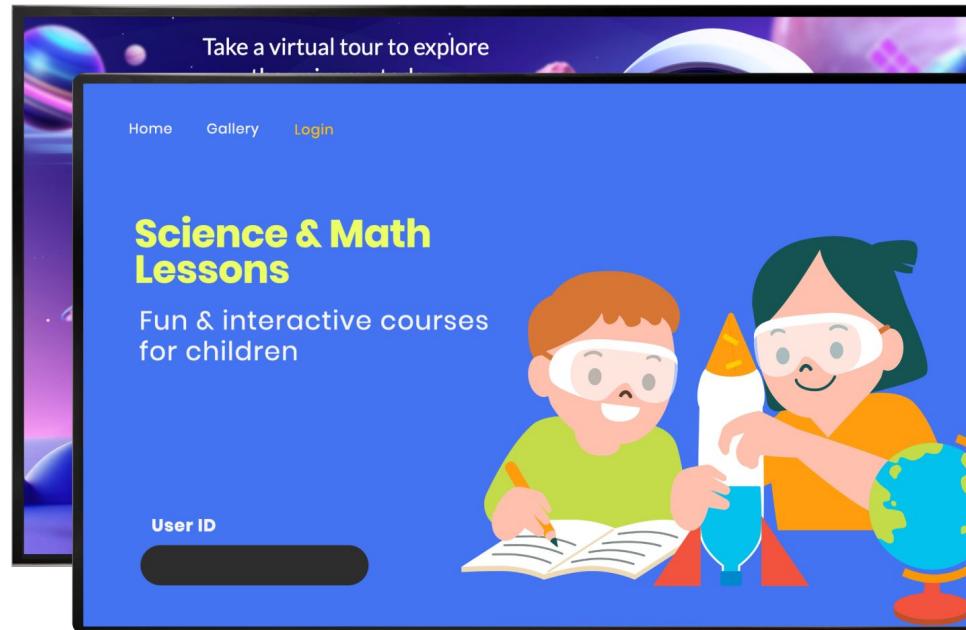

- Debian based Linux device management
- Wi-Fi Configuration
- USB Peripheral Management
- Password Policy
- Shell Scripting

# Scalefusion for IFPDs/LFDs

Manage and secure all your IFP (Interactive Flat Panel Screens) from anywhere in the world, running on any Operating Systems (OS). Remotely control your screens and perform actions such as troubleshooting, pushing content and remote wipe. Keep your devices and your organization's productivity running at its max all of it from a MeitY empanelled data center.

- Perform remote actions like reboot, restart, and data wipe, all within a flash
- Push relevant apps and content in bulk
- Get a bird's eye view of your data and application usage
- Prevent loss or theft by creating virtual boundaries of your educational premise
- Keep your data safe by setting extensive security configurations
- Create automation and workflows to streamline all IT tasks
- Lockdown your devices with access to predefined website URL only
- Keep your data safe & secure with MeitY empanelled data center

# Customer Story #1

With Scalefusion, HAVI Logistics has successfully streamlined its on-field & driver device-fleet management through single console.

## Who?

A world-renowned supply chain management company that offers end-to-end sourcing solutions wanted to simplify their daily device management and administration.

## Problem

- Managing & Securing on-field devices
- Locking down devices to prevent data loss
- Provisioning devices over the air
- Extending remote support
- Tracking location of devices

## Solution

- Device lockdown in Kiosk Mode
- Remote Troubleshooting with RC
- Over the air Content sharing
- Access to only pre-approved websites and applications
- Location tracking & geofencing

# Customer Story #2

Scalefusion's comprehensive solution aids AgVa Healthcare to manage Lenovo Tablets monitoring/controlling a ventilator

## Who?

An Indian healthcare & medical equipment provider known for producing world's most economical ICU ventilator. Instrumental in extending affordable hardware for COVID-19

## Problem

- Configuring tablets in kiosk mode
- Mass enrollment
- Private app distribution
- Remote hotspot configuration
- Curbing excess data usage
- Auto turn on-off
- Monitoring & troubleshooting

## Solution

- Bulk device provisioning with custom scripts delivering 500+ tablets a day
- Single App Kiosk mode for AgVa App
- Silent app installation & updates
- Disabling hardware buttons
- OEM level integration for auto on-off & hotspot configuration
- Remote Cast + VoIP calling for support

# Customer Story #3

Scalefusion's comprehensive solution helps BYJU's to provision and manage tablets for distance learning

## Who?

World's most-valued EdTech company with more than 15 million users providing Educational content along with devices for K-12 education and competitive examinations.

## Problem

- Bulk provisioning
- App & website whitelisting
- Enabling device sharing
- Remotely updating Apps and OS
- Monitoring device usage
- Limited Parental controls
- Remote support

## Solution

- Customized & dedicated Parent Portal
- Disable Play Store access
- Configure browser settings
- Prevent uninstall of BYJU's apps
- Block Factory Reset to avoid misuse
- Remote device monitoring & troubleshooting
